WORK EXPERIENCE

SOFTWARE ENGINEER
IAG Limited (client) Nov 2021 - Current

We developed a versatile quote and buy app for major brands like ASB, NRMA, ANZ, and BNZ, using a microservices architecture to cater to over 75 brands. My role was crafting brand-neutral code for seamless brand integration. Built on a tech stack of ReactTS, DynamoDB, and Typescript, and incorporating Playwright for end-to-end testing and CI/CD, the app combines reliability and efficiency. Hosted on AWS with NewRelic for performance optimization, we delivered a scalable, high-performance solution to meet each brand's unique digital needs.

WORKSHOP COORDINATOR
Berendsen Fluid Power | May 2019 - Aug 2021

Managed a team of eight to refine workshop processes, enhancing efficiency and precision. Collaborated with IT experts to integrate Fujitsu's RunMyProcess ERP, seamlessly merging it with our operations. This key initiative advanced our process automation and data management, showcasing our commitment to technical excellence and reliability."

BUSINESS MANAGER
Bold Int | Sep 2018 - Jan 2019

Engaged in the sales of IT services, including outsourcing, software factory, and IoT. Part of a cross-functional team, I play a key role in strategically shaping solutions that cater precisely to IT stakeholders' needs. My focus is on blending technical expertise with a customer-centric approach, ensuring that each solution is both innovative and aligned with specific client requirements.
